

### **KSC Federal Credit Union Is Here to Help!**

KSC Federal Credit Union recognizes the importance of its responsibility to continue business operations in the event of a disruption of critical business functions. It is the intention of the Board of Directors and Management to continue service to its members in spite of any unplanned or extended interruption of primary business functions. Great effort has been taken to develop and periodically test, our Business Continuity Plan so that the quality of service KSCFCU members are accustomed to is restored as quickly as possible.

Our plan has been designed to identify, protect, and assure the availability of resources required to resume critical business functions as quickly as possible. Critical areas of operation have been identified and prioritized based on their impact to members and the overall operation of the credit union. Be assured that regardless of physical damage to any of our branch offices, power outages, or loss of telecommunications capabilities, your funds and account information will remain safe and secure.

### **What can you do to Prepare?**

- ✓ Don't wait until the last minute to obtain extra cash or gas.
- ✓ Evacuate as early as possible if Emergency Management officials advise it for your area
- ✓ Stay in close contact with media reports
